

## FYB UPDATE - Coronavirus (COVID 19) Plan of Action

Dear FYB Families,

As you may be aware, yesterday San Diego County issued a public health order effective immediately that bans all public gatherings of 250+ people.

After much discussion and consulting with PONY officials, we have made the difficult decision to **suspend all practices and games thru Monday, April 6<sup>th</sup>**.

FYB has always been committed to the safety of our players & their families. So, while we share this news with a great deal of sadness, we understand how important youth baseball is to our players and families.

Our hope is to restart our games & practices as soon as possible. During this temporary break, we will work with the county & PONY officials to ensure we are aware of any changes to recommendations made regarding public gatherings.

Additionally, PONY DAY at PETCO Park has been postponed. We will share more information once the Padres share more details.

We will provide additional information & updates as to when the season will resume.
